Hi Eugene

Hope it's ok, but I've written my comments below:

1. I think Eugene Gamble is a very polite, knowledgeable and extremely competent dentist. He restored my faith in dentists after having endured 18 months of swollen bleeding gums and loose teeth with my original dentist.
2. I received very a good service. I had a plan of action outlined to me, and after my very first appointment with Eugene my gums started to rapidly improve. The improvement was amazing.
3. After my course of treatment my gums went completely back to normal and my teeth were no longer loose. This has had a great effect on my confidence, and going forward I know exactly what issues to look out for in the future. This is all due to Eugene Gamble's expertise. I cannot thank him enough.

George

If there's anything else you need please let me know.

Kind regards

Lisa
